- Climate Change and Health
- Clinical Educator
- Clinical Innovation and Entrepreneurship
- Comprehensive HIV Medicine
- LGBTQ+ Health Advocacy
- New American Health Care
- Prehospital and Wilderness Medicine

Combined Medical and Surgical Integrated Track in Liver Transplantation

Faculty Director

Faruq Pradhan, MBBCh,
FRCPC
Transplant Hepatology

Core Faculty

Shaheed Merani MD, PhD,
FRCS(C), FACS
Transplant Surgery

Fedja Rochling, MBBCh, MBA
Transplant Hepatology

Marco Olivera MD
Transplant Hepatology

M1 Schedule

Clinical:

Hepatology clinic
(observership)
Transplant eval clinic
(observership)

Didactics:

How to Take a Liver History
Elevated Liver Enzymes

Scholarly:

Identify research question
Complete CITI training

Interprofessional:

Tour of operating
room/organ preservation
systems, blood bank

Tour the pathology
department – tissue
processing and slide prep

Attend one patient
selection committee

M2 Schedule

Clinical:

Hepatology clinic, post-transplant clinic
observership

Didactics:

Management of Cirrhosis
Indications for Liver
Transplant
Liver Transplant Surgery

Scholarly:

Capstone project
continuation

- Literature review
- Start study design/IRB
submission

Interprofessional:

Attend post-transplant clinic
Attend transplant selection
committee meeting

M3 Schedule

Clinical:

3-week rotation with
Hepatology

(1 week outpatient, 1 week
inpatient pre-transplant, 1
week post-transplant)

Organ recovery procedure
(and tour path dept with
organ recovery if not
previously done)

Didactics:

Attendance of at least one
Transplant/Hepatology
grand rounds

Attend at least one
Transplant Research
Meeting/Journal Club

Scholarly:

Capstone project
continuation

Select at least one journal
article, and present to
Hepatology or Surgery
faculty

Interprofessional:

Live On Nebraska tour/visit
(arrange during Hepatology
rotation)

Rotate with pharmacists,
review immunosuppression
medications

Rotate with dieticians,
nutritional evaluation of
pre- and post-transplant
patients

M4 Schedule

Clinical:

4-week sub-internship in
Transplant Surgery

Didactics:

Attend one multidisciplinary
hepatocellular carcinoma
tumor board

Scholarly:

Finalize Capstone project,
submit abstract to national
conference

Interprofessional:

Attend post-transplant clinic
Attend transplant selection
committee meeting

Capstone Project Examples

The Association Between HIV-Related Stigma and HIV Outcomes: An Integrative Review

Samantha Cox, Jacob Givens, Titilola Labisi, Keyonna King, Tzeyu L. Michaud, Danielle Westmark, and Nada A. Fadul

The Role of Medical Language in Patient Care: Designing an Educational Session on the Use of Non-Stigmatizing Language

Daniel Dooling

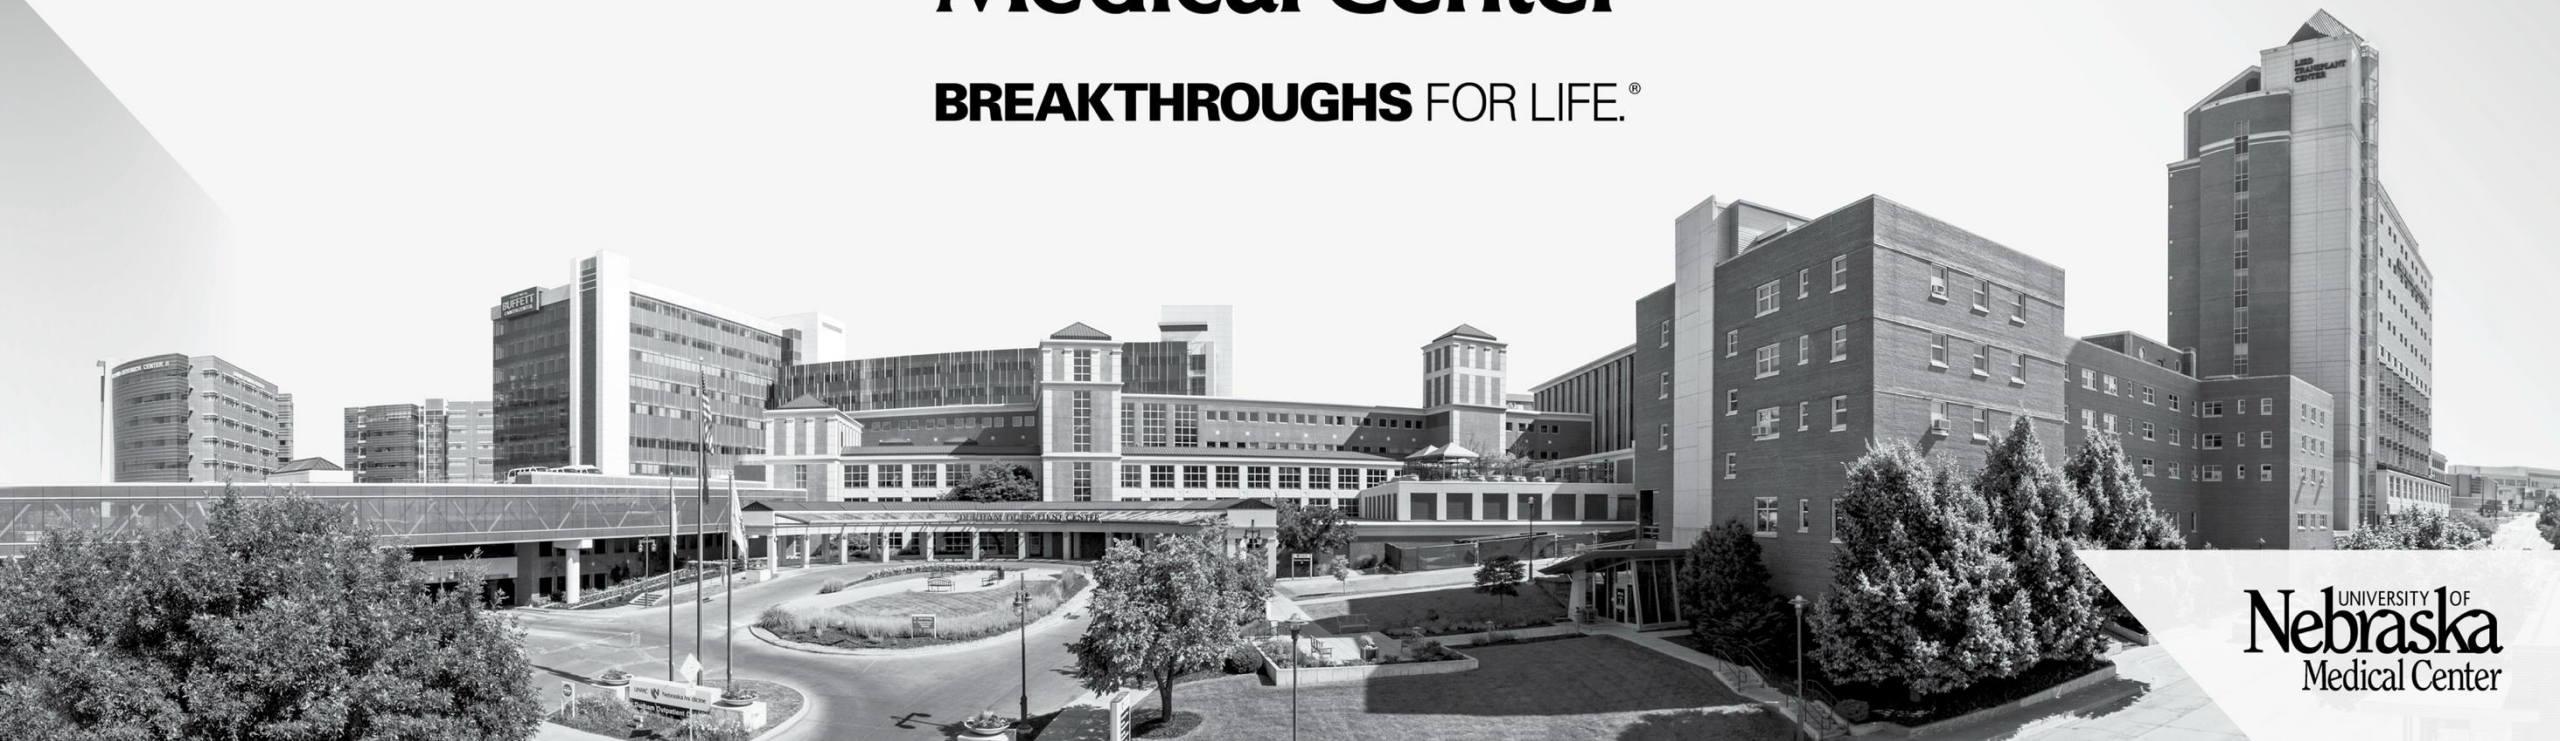

Association of Health Literacy and Provider Education with Knowledge of Breast and Cervical Cancer Screening in an Underserved Female Population

Mallory Gandy, Karly A. Meyer, Jennifer Liu, and Jenenne Geske
